## Our priorities 2014

Occupancy rate development	Our target is to keep occupancy rate at the end-of-2013 level. In 2014, however, our occupancy rate will be slightly below due to bankruptcies and tenant debt restructurings.					
Implementing our new strategy	EUR fund	We have disposed non-core assets for EUR 232.1 million and our share of the real estate funds for EUR 77.2 million. One larger office property acquired in Tampere.				
Stable cash flow from operations p	per share	We aim to maintain our ability to pay stable dividend.				
Increased focus in property develo	opment	During 2014, we have started four projects: Ilmala and Lassila offices and Ruoholahti and Keskuskatu renovations.

### Prospects and financial targets

### **Prospects**

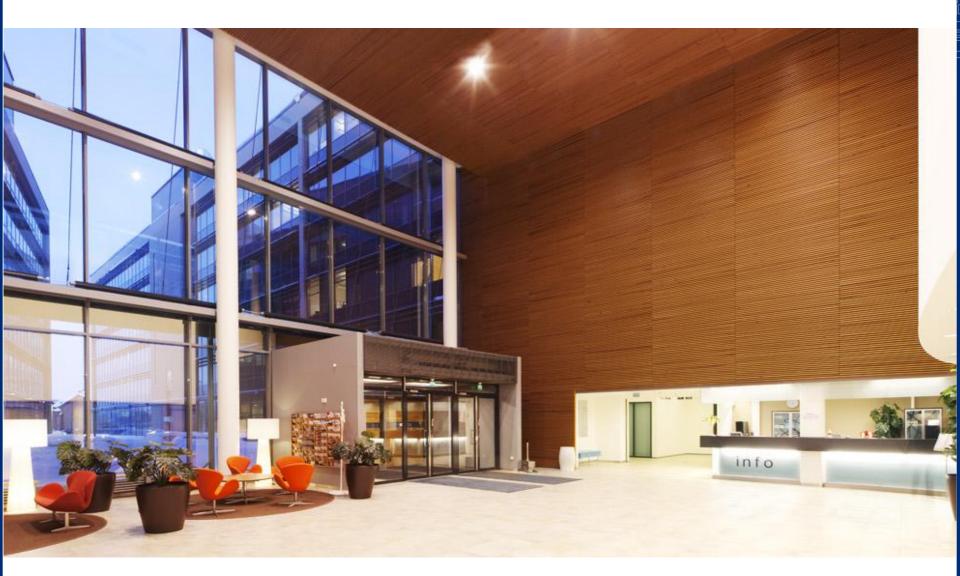

- Sponda expects the economic occupancy rate of the Group's properties in 2014 to decline slightly from 2013. Earlier Sponda estimated that the economic occupancy rate in 2014 will remain largely unchanged from 2013. The revised estimate is mainly based on bankruptcies and debt restructurings in the tenant base during the third quarter.
- Sponda estimates that the NOI will be EUR 175-180 million (Q2/2014: EUR 175-183 million) at the end of 2014 (including NOI from the properties sold to Certeum for the period they were held). The estimate was revised based on the expected letting activities in the fourth quarter 2014 and on property transactions that could still affect Sponda's net operating income.

### **Financial targets**

- Long-term equity ratio target is 40 %.
- Dividend policy is to pay approx. 50 % of the operational cash earnings per share, taking into account of the economic situation and company's development needs.

- Capital received from the planned disposals will be re-invested in Helsinki and Tampere areas in office and shopping centre properties and property development projects.
- The possible acquisitions will be made if and when suitable properties are found.
